

MUSIC FOR TEENS

INTRODUCTION

My name is Caleb Chiasson. I am in 9th grade. I go to high school. My music development has changed a lot since I was young, like my taste in music, the artist's I listen to and the groups. My musical interest is very strange, because I have loved listening and playing then I don't like playing. In the past I have played the trombone and I played for around 1 year.

FAVORITE GROUP/COMPOSER

- I listen to a lot of different groups, and I don't have a favorite group. But if I had to choose a person, I would choose XXX tentacion.

EXPERIENCE

- The experience that I've had so far was good. There were some downfalls, but this is all a new experience to me. I hope to learn more things like sound and audio and maybe even lights. When I first started this music class, I thought I would learn a lot about instruments or different stuff like that, but we didn't do anything like that so far.
